Day 3			
	Breakfast	Lunch	Dinner
Head Cook			
Cleanup			
Fire & Water			
Cook #2			
Cleanup #2			
Fire & Water #2			

Fire & Water maintains water supply, gathers fuel supply and protects it from the weather, makes sure cooking fires or stoves are ready so the cook crew has meals prepared on time.

Cook assembles food supply, follows recipes, serves meals, puts food away, prepares cook pots to soak, sets cleanup water on heat before serving meals. Directs assistant cooks.

Cleanup sets up for dishwashing, cleans pots and utensils, cleans up camp kitchen and dining areas, stores all group equipment, disposes of garbage and trash, and puts out any cooking fire.
